

# How to Upload Your Homework

A Step-by-Step Guide for Students

---

## Step 1: Open Your Lesson

- Go to the **Learning** tab in the sidebar.
- Click on your assigned lesson from the **My Lessons** page.
- Navigate to the topic that has a **home activity** (green icon).

## Step 2: Complete the Activity

- Read through the lesson content carefully (a reading timer tracks your time).
- Complete the activity using the recommended software (Scratch, Canva, Python, etc.).
- Take a **screenshot** of your completed work on your device.

## Step 3: Upload Your Screenshot

- Scroll down to the **Upload Your Work** section (green dashed box).
- Tap **Take a Photo or Choose Image** to select your screenshot.
- Choose the **software you used** from the dropdown menu.
- Optionally add notes describing what you made.
- Tap the **Submit Homework** button.
- Wait for the success message - your image is automatically compressed and uploaded.

## Step 4: Wait for Teacher Review

- After uploading, your status changes to **Waiting for Teacher Review**.
- Your teacher will review your screenshot and provide feedback.
- If your work is **approved**, you move to the next step.
- If your work is **rejected**, you will need to re-upload with improvements.

## Step 5: Guardian Review

- This step can only be done **outside school hours** (after 3:00 PM).
- Ask your parent or guardian to sit with you.
- Show them your completed activity and the teacher's feedback.
- Your guardian will review and approve your work on this device.
- Once approved, the topic is **fully completed!**

## Tips & Troubleshooting

- Images are automatically compressed - no need to resize before uploading.
- Maximum file size before compression: **10 MB**.
- Supported formats: JPG, PNG, and other common image types.
- You can only submit **one screenshot per topic**.
- If the upload fails, check your internet connection and try again.
- If you see 'User session not found', refresh the page and log in again.
